

THE PUBLICATION SCHEME OF TRINITY HOUSE IN ITS CAPACITY AS A GENERAL LIGHTHOUSE AUTHORITY

Introduction

The Corporation of Trinity House is the General Lighthouse Authority for England, Wales, the Channel Islands and Gibraltar and is responsible in those areas for the superintendence and management of a range of aids to navigation from lighthouses to satellite navigation systems (differential GPS). It is one of three General Lighthouse Authorities. The other two are the Commissioners of Northern Lighthouses (more commonly known as the Northern Lighthouse Board) who are the Authority for Scotland and the Isle of Man and the Commissioners of Irish Lights (known as Irish Lights) who are the Authority for Ireland.

The Merchant Shipping Act 1995 sets out the main rights and responsibilities of Trinity House as a GLA "TH". These cover the provision, maintenance, inspection and control of marine aids to navigation, wreck removal and the collection of light dues. Wreck removal is also covered by the Wreck Removal Convention Act 2011. TH's powers to undertake commercial work are covered by the Marine Navigation Act 2013.

The Freedom of Information Act 2000 ("**FOIA**") gives a general right of access to all types of recorded information held by public authorities, sets out exemptions from that right and places a number of obligations on public authorities. TH is not designated as a public authority under the FOIA. However, it has elected voluntarily to act within the spirit of the FOIA, including establishing this Publication Scheme.

This Publication Scheme relates solely the role of the Corporation of Trinity House as a General Lighthouse Authority.

The purpose of the Publication Scheme is to set out the types of information that TH will make available to the public, the method for accessing the information, which we aim to make as easy as possible, and any costs that will be levied to obtain such information.

Responsibility for the TH Publication Scheme at Board level rests with Captain Ian McNaught, the Executive Chairman. The scheme is managed on a day-to-day basis by:
