Trinity House (TH) is committed to operating in a manner that avoids damage to the environment, prevents pollution, protects biodiversity, and supports the UK Government's **Greening Government Commitments (GGCs)** as they evolve.

Our Commitments

- **Legal & Standards Compliance:** Comply with all relevant environmental legislation and standards, including ISM Code, ISO 14001:2015, the Greening Government Commitments, and UK law such as the Environmental Protection Act 1990, Climate Change Act 2008, Marine and Coastal Access Act 2009, and the Merchant Shipping (Pollution) Regulations.
- **Pollution Prevention**
Prevent and minimise pollution to air, land, and sea including noise and light pollution through proactive operational controls and mitigation strategies.
- **Climate Action**
Reduce greenhouse gas emissions in line with the UK's Net Zero by 2050 target. Integrate climate adaptation and resilience measures into all operations and planning.
- **Resource Efficiency**
Reduce energy, water, and material consumption, and procure goods and services sustainably and always considering life-cycle impacts.
- **Biodiversity Protection**
Avoid harm to habitats and protected species.
- **Cultural & Natural Heritage**
Safeguard and enhance the cultural and natural assets under our stewardship, recognising their environmental and historical value.
- **Awareness & Engagement**
Foster environmental awareness and responsibility among staff through training, communication, and shared sustainability objectives.
- **Continual Improvement**
Maintain and improve our Environmental Management System (EMS). Implement and annually review a Corporate Environmental Plan aligned with GGC reporting cycles.
